

CLAIM AMENDMENTS

1.-21. (Cancelled)

22. (Currently Amended) A method comprising:

mounting a tray, the tray including a an open groove defined by first and second longitudinal edges and the first longitudinal edge being higher than the second longitudinal edge; placing a cable in the groove; ~~and~~ selectively routing the cable through a notch in the first edge and a notch in the second edge; and

placing a cover in proximity to the first and second longitudinal edges to close the groove and conceal the cable in the groove.

23. (Previously Presented) The method of claim 22, wherein the first and second longitudinal edges are substantially orthogonal with respect to each other.

24. (Currently amended) The method of claim 22, ~~further comprising:~~
~~—placing a cover over the groove to conceal the cable in the groove~~ wherein placing comprises contacting at least one of the first and second longitudinal edges with the cover.

25. (New) The method of claim 22, wherein the notch in the first edge comprises one out of a plurality of notches in the first longitudinal edge.

26. (New) The method of claim 25, wherein the notch in the second edge comprises one out of a plurality of notches in the second longitudinal edge.

27. (New) The method of claim 25, wherein said plurality of notches are uniformly spaced with respect to each other along the first longitudinal edge.
